

Versa Doblo

Designed with families in mind

Versa Doblo

“With its captivating design, comfortable and versatile interiors and its efficient and reliable performance, the new Fiat Doblo is ready to face any challenge.”

The Versa Doblo takes these attributes and focuses on extending them seamlessly into the wheelchair accessible aspects of our vehicle. It is our aim throughout to produce a conversion that is both practical and stylish, with an attention to detail that provides the same high quality look and feel throughout the vehicle. In fact we would be bold enough to say that the Versa Doblo is the most sophisticated small wheelchair accessible vehicle available, thanks to our exclusive partnership with Italian manufacturers Foccacia.

The Versa Doblo comes as standard with seating for the driver and front passenger, and space for one wheelchair user behind. Either one or two additional seats can be added in the rear of the vehicle, such that, depending on the size of the wheelchair, the Versa Doblo can accommodate up to four seated passengers (including the driver) plus the wheelchair user.

Twin sliding doors allow for ease of passenger access with a lightweight manual ramp to the rear for wheelchair access.

Designed with families in mind

Versa Doblo Model Range

Vehicle Layouts

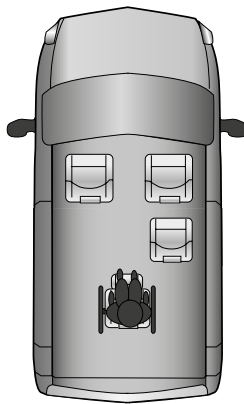

The Versa Doblo is based on the short wheelbase Fiat Doblo. The standard specification includes seating for the driver and one front passenger and then space for the wheelchair user to sit behind. Either one or two additional seats can be added in the rear of the vehicle if

required. Depending on the size of the wheelchair, the Versa Doblo can accommodate up to four seated passengers (including the driver) and one wheelchair user. Similarly depending on the size of the wheelchair, the design of the conversion means the wheelchair

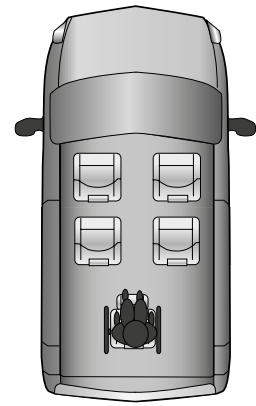

user may be able to travel between the rear seats at the same level as the other passengers. Wheelchair access is via a lightweight manual ramp to the rear of the vehicle.

Maximum wheelchair width with 0 rear seats
795mm

Maximum wheelchair width with 1 rear seat
695mm

Maximum wheelchair width with 2 rear seats
595mm

Critical Dimensions

Entry height.....1,430mm
Ramp length.....1,330mm
Ramp width.....795mm
Channel length.....1,400mm
External height.....1,895mm
External length.....4,406mm

Optional Extras

Conversion Extras	Description
Winch	Wireless remote operated winch to allow wheelchair users or carers to load or unload wheelchairs and their occupants in a safe manner and with the minimum of effort
Rear parking sensors	Rear parking sensors let you manoeuvre safely and effectively, fully aware of hidden obstacles
Armani carpet upgrade	Stylish carpet design to enhance the elegance and quality of the rear passenger area
Side LED lights	Add practical lighting to the wheelchair channel in the vehicle, and also a little panache!
Retractor holders	Useful storage facility for the wheelchair restraints when not in use
Hand rails	Available on the left and/or right side to provide added stability to the wheelchair user when travelling in the vehicle

These are the most popular conversion extras. Our Sales Team would be happy to discuss other options we offer to suit your personal requirements.
